

Information Security Policy

We at Tafaseel believe in leadership by ensuring quality as well as information security and remain committed to be the “FIRST” brand choice of our customers by providing “On-time Every-time Secured services” solutions in Business Process Outsourcing and Information Technology. We want to achieve a leading position in our industry by ensuring timely and reliable information security services. Information Security Management is the key of Tafaseel to deliver our services with continual improvement and to achieve customer satisfaction.

We will achieve this by:

- Using all reasonable, appropriate, practical, and effective security measures to protect our important processes and assets in order to achieve our security objectives.
- Continually examining ways in which we can improve our use of security measures to protect and enhance our business and continual improvement in ISMS.
- Protecting and managing our information assets to enable us to meet our contractual, legislative, privacy and ethical responsibilities, and satisfy applicable IS requirements and legal requirements.
- Providing our clients with continuous process and quality improvements through a combination of domain expertise and technology driven optimization.

All employees ensure to follow this policy and protect security of information assets from unauthorized use, modification, disclosure, or destruction, whether accidental or intentional.
